### Aristocrats of the Garden

### America's Greatest Garden

*Two New Books by*

E. H. "Chinese" WILSON

You need these informative books to answer the perennial question—What is best to plant? Why not have the best, the most beautiful and the most permanent plants in your garden?

# TWO NEW GARDEN BOOKS

## *Aristocrats of the Garden*

**A**HANDBOOK indispensable to all who would garden wisely and surround themselves with beauty permanent and inspiring; an epitome of what is best among hardy plant material.

Of herb and vine, shrub and tree the author has from the back-blocks of the Orient added 2,000 novelties to gardens. He has traveled the five continents and has seen all that is best in the world's best gardens. Plants have been his life's study and his mind is rich in comparative knowledge. He enjoys an enviable reputation for accuracy and is an accounted friend of all who garden.

In *Aristocrats of the Garden* no favoritism is shown but in lucid phrases the merits and demerits of hundreds of plants are judiciously acclaimed. The book contains more than 300 pages of text, a complete index and twenty-six superb illustrations.

## America's Greatest Garden

**A** BOOK for all who love the beautiful in flower and fruit, in bud and twig, in leaf and bark. The story of a garden, open free to all every day in the year, in which may be seen all the aristocrats of northern lands; of the garden that gave *Clematis paniculata* and *Berberis Thunbergii* to America and is the greatest asset to gardeners and nurserymen in this country; the history of the greatest garden achievement in all America: a compendium of the Arnold Arboretum's experience in the acclimatization of woody plants from all parts of the northern hemisphere.

To the increasing thousands who frequent the Arnold Arboretum yearly this book will supply a much needed want. Told simply in 18 chapters rich in invaluable data for professional and amateur gardeners and embellished with fifty exquisite full page illustrations.

CULTIVATED EVERGREENS.

Another fine handbook by Prof. L. H. Bailey supplying authoritative information on the use of evergreens in the planted landscape, soils and locations, planting, pruning and cultivation, treatment of the feeding insects and diseases. Beautifully illustrated, postpaid \$5.25.

BOOK OF LANDSCAPE GARDENING.

This book by Frank A. Waugh, Prof. of Landscape Gardening at the Mass. Agricultural College, will be useful to a large class of readers, not only to professional landscape gardeners, owners of home grounds, suburban residents, park and cemetery superintendents but also to architects, landscape painters, photographers and art lovers, and students in general. 210 pages, \$2.25 postpaid.

PRINCIPLES OF PLANT CULTURE.

One should know the nature of a plant and how it responds to the conditions in which it is placed, and how it is protected and propagated. This book describes the conditions which govern plant growth and in addition gives specific directions for the propagation and care of plants, cutting, grafting, transplanting, pruning, etc. By E. S. Goff. Postpaid for \$2.35.
